

Make & Use Group Exercise

Discuss the difference between making study materials and using them in preparing for an exam. Identify what study materials you routinely create, describe what you do with them in the practice of studying, and explain why. Consider the pros and cons of creating and using study materials you haven't previously tried.

Preparation (Make)

Develop study sheets
Develop concept maps
Make word cards
Make formula cards
Make timelines
Create/complete study guides
Outline
Work problems
Predict test questions
Outline/write essay answers
Prepare for group study
Answer review questions

Review (Use)

Recite study sheets out loud
Replicate concept maps
Recite word cards
Practice writing formulas
Recreate from memory
Use blank copy as self-test
Rewrite/talk thru connections
Do "missed" problems from memory
Recite answers out loud
Write answers from memory
Explain material to group
Recite answers from memory
